BEFORE THE TEAM ARRIVES

The property should be vacant or substantially cleared. Utilities, running water, electricity, safe access, parking/loading instructions and entry arrangements must be available. Identify fragile finishes, damage or areas requiring special care.

SCOPE-DEPENDENT ITEMS

Heavy buildup, neglected conditions, excessive debris, pest activity, hazardous materials, exterior or high-access work, specialty restoration and removal of belongings require prior review and may affect scope, staffing, time and price.

Final scope: The confirmed booking, property condition and written service notes determine the work included in each appointment.
